

Saint Mary's Lab Labeling Policy

Please double check your specimen labeling.

Specimens should be labeled in patient's presences.

For patient safety all specimens for testing: blood, urine, swabs etc. must be labeled with the two identifiers below. The label must be on the container, **do not place label on the lid**.

Patient identifiers on specimen and test order must match.

1) Patient full legal name: First name & Last name

2) Date of Birth

Also include, Date & Time collected, Source

Specimens without two full identifiers will be **discarded**. Initials are not acceptable.
